

#### CARBON REDUCTION PLAN GUIDANCE

#### **Notes for Completion**

Where an In-Scope Organisation has determined that the measure applies to the procurement, suppliers wishing to bid for that contract are required at the selection stage to submit a Carbon Reduction Plan which details their organisational carbon footprint and confirms their commitment to achieving Net Zero by 2050.

Carbon Reduction Plans are to be completed by the bidding supplier entity and must meet the reporting requirements set out in supporting guidance, and include the supplier's current carbon footprint and its commitment to reducing emissions to achieve Net Zero emissions by 2050.

The Carbon Reduction Plan should be updated regularly (at least annually) and published and clearly signposted on the supplier's UK website. It should be approved by a director (or equivalent senior leadership) within the supplier's organisation to demonstrate a clear commitment to emissions reduction at the highest level. Suppliers may wish to adopt the key objectives of the Carbon Reduction Plan within their strategic plans.

A template for the Carbon Reduction Plan is set out below. Please complete and publish your Carbon Reduction Plan in accordance with the reporting standard published alongside this PPN.

# Carbon Reduction Plan tmc3 Limited

Supplier name:	.tmc3 LIMITED
Publication date:	16 February 2022
Commitment to	achieving Net Zero
tmc3 LIMITED is com	nmitted to achieving Net Zero emissions by 20 <b>24</b> .
Baseline Emissi	ons Footprint
past and were produc	re a record of the greenhouse gases that have been produced in the sed prior to the introduction of any strategies to reduce emissions. The reference point against which emissions reduction can be
Baseline Year: 202	1 - 3,206 kg CO2e.
Additional Details r	relating to the Baseline Emissions calculations.
of new company pol	3 emissions reporting. New baseline has been generated due to adoption icy to achieving net zero carbon efficiencies. All of current carbon output is emissions during the conduct of our business operations.
Baseline year emis	sions:
EMISSIONS	TOTAL (tCO <sub>2</sub> e) 3,206 kg CO <sub>2</sub> e
Scope 1	100%
Scope 2	0%
Scope 3 (Included Sources)	0%

**Total Emissions** 

3,206 kg CO2e

#### **Current Emissions Reporting**

Reporting Year: 20	021
EMISSIONS	TOTAL (tCO₂e) 3,206 kg CO2e
Scope 1	100%
Scope 2	0%
Scope 3 (Included Sources)	0%
Total Emissions	3,206 kg CO2e

#### **Emissions reduction targets**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

tmc3 is making progress towards achieving Net Zero carbon emissions by 2024. We will continue to focus on actual reductions in our emissions by engaging key suppliers to reduce their emissions, and equipping our people to make climate-smart travel decisions. Whilst we celebrate the temporary reductions in emissions seen in fiscal year 2021, and the important possibilities this represents, our sights remain firmly set on exceeding all elements of our Science-Based Target on a long-term basis once the impacts of the pandemic have settled.

We project that carbon emissions will decrease over the next five years to **1800** tCO<sub>2</sub>e by 20**23**. This is a reduction of **44**%

## **Carbon Reduction Projects**

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 20**21** baseline. The carbon emission reduction achieved by these schemes equate to **2000** tCO<sub>2</sub>e, a **33**%ge reduction. We have the following initiatives in flight:

- Committed to the Queens Green Canopy Scheme whereby our staff have been encouraged to be engaged in planting a variety of trees in support of the Platinum Jubilee.
- Mandating paper free offices.

- All employees are committed to green sources of energy at home and are operating either renewables solutions or sourcing their electricity supply from a 100% green energy supplier.
- Reduction of business travel, with a 'virtual first' meeting policy.

In the future we hope to implement further measures such as:

- Employee engagement and upskilling: Offering a range of engagement activities such as our Eco Innovation Challenge, Sustainability Quotient training, Carbon + Climate training, Eco Action campaign and ecovolunteering opportunities
- Promote and encourage corporate recycling initiatives through introducing our staff to a recycling app, introducing a paperless office policy, buying recycled supplies.

#### **Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
